NRC License 07-12153-02

Dear Ms. Lanzisera:

This letter certifies that Dr. James Ntambi has successfully completed training for Y-90 SIR-Spheres therapy in

- a. the operation of the delivery system;
- b. safety procedures, including operating and emergency procedures;
- c. clinical use applications, including procedures for written directives, the manufacturer's procedures for calculating and documenting the dose or activity to the treatment site, procedures for preparing the dose for administration, determining shunting to non-treatment sites, and performing pre- and post-vial dose measurements; and
- d. medical event reporting.

I proctored three Y-90 SIR-Spheres treatment cases with Dr. Ntambi on the following dates: 11/4/2020, 11/23/2020, and 1/8/2021.

He participated in the cases from start to finish and has satisfactorily completed all the requirements toward becoming an AU and is able to independently fulfill the radiation safety related duties as an AU for SIR-Spheres therapy.

If you have any questions, or need any additional information, please do not hesitate to contact me or Xiaoqian (Carol) Wen, RSO at (302)623-3839.

Sincerely,
