To continue our review of you amendment request to change your RSO, please provide the following additional information in a letter signed by senior management:

1. You have requested that Mr. Gregory Hisel be named Radiation Safety Officer (RSO) on your license. It appears that this individual may be an outside consultant\contractor. If this is so, in support of this request, please address the following:
 - a. Describe the control over the radiation safety program that will be delegated so that the consultant-RSO will be able to exercise authority over authorized users when confronted with radiation safety problems that require implementation of corrective actions.
 - b. Describe the relationship that will exist between the consultant-RSO and your institutional management regarding expenditure of funds to facilitate the objectives of your radiation safety program and related regulatory requirements.
 - c. Identify other commitments of the consultant-RSO for other NRC or Agreement State licensed facilities in addition to Saint Francis Hospital, along with a description of how the consultant-RSO will allocate time to permit the performance of the duties of the RSO as described in the regulations.
 - d. Appoint an in-house representative who will serve as the point of contact during the RSO's absence. This person may be allowed to assist the consultant RSO with limited authority.
 - e. Describe the overall availability of the consultant-RSO to respond to questions or operational issues that arise during the conduct of your radiation safety program and related regulatory requirements.
2. You have requested Mr. Hisel's certification (CHP) to be included in his authorization as RSO. Please provide documentation to show that Mr. Hisel's certification is current.
