MEMORANDUM AND ORDER
(Scheduling Initial Prehearing Conference)

Based on the information provided by the participants in response to the Licensing Board's January 19, 2021 issuance,¹ the Board will schedule an initial prehearing conference in this 10 C.F.R. Parts 50/54 subsequent license renewal proceeding for Thursday, February 4, 2021, beginning at 2:00 p.m. Eastern Time. This conference will be principally for the purpose of conducting an oral argument regarding whether petitioners Beyond Nuclear, Sierra Club, and Alliance for Progressive Virginia have made an adequate showing to obtain a 10 C.F.R. § 2.335 waiver associated with, as well as the admission of, their single contention challenging applicant Virginia Electric Power Company's environmental report relative to an environmental impacts analysis of the 2011 Mineral, Virginia earthquake.

¹ See Licensing Board Memorandum and Order (Initial Prehearing Conference Scheduling and Procedures) (Jan. 19, 2021) at 2 (unpublished).

As was noted in our prior issuance,² the conference will be conducted virtually using the Cisco WebEx web conferencing platform. Board law clerk Molly Mattison will contact the participants' counsel by e-mail (1) regarding scheduling a test session conducted by the Licensing Board Panel's Information Technology staff to identify and mitigate any technical issues concerning access to the status conference; and (2) to provide information about accessing the Cisco WebEx web conference by participants' counsel and access by listen-only telephone lines by others wanting to hear the conference. The Board also anticipates issuing an additional memorandum prior to the conference providing information to (1) the participants' counsel about particular questions or issues they should be prepared to address during the conference; and (2) interested members of the public and the press about how to access the conference via a listen-only telephone connection.

It is so ORDERED.
