

STATE OF WASHINGTON     )  
                                      :     ss  
COUNTY OF BENTON     )

**Timothy J. Tate**, being duly sworn on oath, states as follows:

1. I am employed by Framatome Inc. (Framatome) as Manager, Environmental, Health, Safety and Licensing in Richland, Washington. I am responsible for the overall administration of the safety programs at Framatome's Richland, Washington nuclear fuel fabrication facility, including regulatory licensing and permitting. This affidavit is based on my first hand, personal knowledge and is submitted in my capacity as Manager, Environmental, Health, Safety and Licensing.

2. I am familiar with the contents of the "Triennial Update to Decommissioning Funding Plan (DFP) for the Framatome Inc. Richland Nuclear Fuel Fabrication Facility (License No. SNM-1227; Docket No. 70-1257) as required by 10 CFR 70.25(e). This Triennial Update has been classified and designated as "Proprietary" by Framatome in accordance with the document control system and policies established by Framatome for the control and protection of proprietary and confidential information.

3. Framatome is engaged in the business of designing and manufacturing nuclear fuel assemblies for commercial nuclear reactors. Within the United States, there are two additional firms that design and manufacture nuclear fuel for commercial nuclear reactors and there are several other companies outside of the United States that engage in the same business as Framatome. Competition among these companies including Framatome is fierce and manufacturing costs of the nuclear fuel are critical to the maintenance of market share and to the growth of market share among utility customers.

4. The Triennial Update contains commercial information of a confidential nature that is not available in public sources or available to the public. Sections also contain information that is considered security sensitive in accordance with USNRC RIS 2005-31. This information contained in the Annual Update is commercial and confidential because it: Framatome Inc. will suffer considerable competitive harm if the contents of the license amendment package are made available to Framatome domestic and international competitors. Finally, this material cannot be reasonably segregated from other material which may not meet the criteria set forth in 10 CFR § 2.390.

Dated this 28 day of January, 2021.

Timothy J. Tate  
Manager, Environmental, Health, Safety and Licensing

STATE OF WASHINGTON     )  
  :     ss  
COUNTY OF BENTON     )

On this 28th day of January, 2021, before me, the undersigned, a Notary Public in and for the State of Washington, duly commissioned and sworn, personally appeared Timothy J. Tate to me known to be the Manager, Environmental, Health, Safety, and Licensing of Framatome Inc., the corporation that executed the foregoing instrument, and acknowledged the said instrument to be the free and voluntary act and deed of said corporation, for the uses and purposes therein mentioned, and on oath stated that he is authorized to execute the said instrument.

Witness my hand and official seal hereto affixed the day and year first above written.

Mary Anne Heilman  
Notary Public in and for the State of Washington,  
residing at Benton, Washington.  
My commission expires: June 6, 2024
