WASHINGTON, D.C. 20555-0001

February 23, 2021

Mr. Simon Irish
Chief Executive Officer
Terrestrial Energy USA, Inc.
537 Steamboat Road, Suite 200
Greenwich, CT 06830

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE
FOR TERRESTRIAL ENERGY USA – POSTULATED INITIATING EVENTS
FOR IMSR® WHITE PAPER

Dear Mr. Irish:

By letter dated October 22, 2020 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML20318A178), you submitted an affidavit executed by you for Terrestrial Energy USA (TEUSA), requesting that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

“Postulated Initiating Events for IMSR®”

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the reasons set forth in affidavit paragraphs (4)b and (4)c shown below:

- b. [Contains] [i]information that, if used by a competitor, would reduce their expenditure of resources or improve their competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing of a similar product.
- c. [Contains] [i]information that reveals aspects of past, present, or future TEUSA development plans and programs, resulting in potential products to TEUSA.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the Postulated Initiating Events for IMSR® white paper marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the U.S. Nuclear Regulatory Commission (NRC). You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-4093.

Sincerely,

Signed by Muniz Gonzalez, Adrian
on 02/18/21

Adrian Muñiz, Project Manager
Advanced Reactors Licensing Branch
Division of Advanced Reactors and Non-Power
Production and Utilization Facilities
