Subject: RE: OE discrimination reference material

Hi Ian,

Good to hear from you. I'll get you some feedback later today but wanted to send you a short email.

What you have is a great start. I was thinking that the document to be provided would be tied to the TVA EAs. Because there are so many of them and spanning a spectrum of results (e.g., fines and amounts, bans, etc.), this document (or decoder) would be needed to understand how the NRC reached/determined each fine/ban. By having this document, we would be able to clearly understand how the NRC reached its conclusion for each individual and licensee.

I have a meeting with Darrell at 1:30 today. Let me confirm this with him and get back to you. Will you be free later this afternoon??

Thanks,
Jessie

Subject: OE discrimination reference material

Good afternoon Jessie,

Paul Peduzzi asked that Kitty Thompson and I put together a summary document showing high-level information about discrimination cases. The attached document provides an overview of the applicable regulations, severity levels with examples, civil penalties, and individual orders that are considered when dispositioning a discrimination case. Included in each section is the source.

Before we finalize the document, I wanted to run it by you to see if you have any feedback. Please let me know if you would like any changes (e.g., too long/too short, additional topics). After I incorporate your comments, I can run a final version through OE and hope to get it back to you and Darrell ASAP.

Thanks,
Ian
