February 17, 2021

Mr. John Grabnar
Site Vice President
Energy Harbor Nuclear Corp.
Beaver Valley Power Station
Route 168
Shippingport, PA 15077-0004

SUBJECT: BEAVER VALLEY POWER STATION, UNIT 1 – OPERATOR LICENSING
EXAMINATION APPROVAL

Dear Mr. Grabnar:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at the Beaver Valley Unit 1 facility.

The U.S. Nuclear Regulatory Commission (NRC) has approved the subject examinations, and you may administer the written examination in accordance with Revision 11 to NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," on the week of March 8, 2021. The NRC staff will administer the operating tests during the week March 1, 2021. The list of applicants approved to take the examination has been provided to Mr. William Cothen, Site Training Manager. The examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensed operators at your facility, do not administer the examination and contact me at 610-337-5306.

Please contact your Chief Examiner, David Silk, at 610-337-5372, if you have any questions or identify any errors or changes in the license level (reactor operator or senior reactor operator) or type of examination (partial or complete written examination or operating test, or both) specified for each applicant approved to take the examination.

Sincerely,

X /RA/

Signed by: Donald E. Jackson
Donald E. Jackson, Chief
Operations Branch
Division of Reactor Safety
