Please confirm that you are requesting to authorize two CPN Model MC-1 portable moisture density gauges. Additionally, the Sealed Source and Device Registry for the Humboldt HS-5001 portable moisture density gauge permits up to 44 mCi of Am-241. Please confirm if you wish to set the possession limit for this device at 40 mCi or 44 mCi. 2. In your response to Item 10.2 "Radiation Monitoring Instruments" you indicated that alternative procedures are attached. The additional relevant procedures did not appear to be attached. Please clarify your response to this item and describe how you will have access to a radiation survey meter in the event of an incident. 3. A copy of your Radiation Safety Program was included with your application, but is not required. Please confirm if you would like to continue with the program as part of your licensing basis and commitments or if you would like withdraw this section from your application.
