Subject: Request for additional information for NRC License No. 41-32720-02MD
Date: Tuesday, February 16, 2021 6:01:00 PM

Dear Mr. Stubbs:

We have received and reviewed your response dated February 12, 2021. Please note that the NRC policy is to renew a radioactive material license in its entirety. Based on the review, we will need the following.

1. It appears there was a typo in your response to Item 6. Specifically, the regulation cited in the last sentence should be 10 CFR 20.1101(d). Please correct and resubmit the last paragraph for Item 6.
2. We did not receive the ventilation diagram for the facility. Based on a review of your renewal application dated September 11, 2009 (tied down in the current License Condition 20.A.) signed by David J. Krueger, the ventilation diagram was on page 117. Please resubmit that diagram if there have been no changes to the ventilation system or a new diagram.

Please provide the response in writing with authorized signature by February 22, 2021. If you prefer you could fax the response to 630-515-1078; there is no need to mail in the hard copy. To facilitate proper mailing handling in our office, please reference Mail Control No. 622889 in the cover letter. If you have any questions or need a clarification, please do not hesitate to contact me at 630-829-9623 or reply to this email.

Thank you,

Frank Tran

Subject: [External_Sender] RE: Request for additional information for NRC License No. 41-32720-02MD Mail Control No 622889

Mr. Tran,

I am attaching an updated response. I noticed an error in my response to question 3 and I have corrected that in this copy. Please delete the previous version and replace with the attached, updated version. Again, please let me know if you would also require a hard copy sent in addition to this PDF copy.

Thank you and enjoy your weekend.
