Subject: [External_Sender] Re: FYI: NRC letter to NMFS concerning Atlantic sturgeon at Surry
Date: Wednesday, February 24, 2021 6:19:23 AM

Hi Briana,

NMFS has reviewed your January 2021 letter regarding the entangled Atlantic sturgeon observed at the Surry facility in October 2020. We have no information that would cause us to reach a different conclusion than the one reached in your January 2021 letter. As such, we agree that no further consultation is necessary at this time. Thank you again for the prompt and thorough response to this incident.

Julie

Julie,

NRC has signed out the attached letter concerning the October 2020 discovery of an entangled Atlantic sturgeon at the Surry Power Station low-level intake trash rack. Please let me know if you have any questions as you review. Thanks!

Briana
