

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
REGION I
2100 RENAISSANCE BLVD.
KING OF PRUSSIA, PA 19406-2713

February 22, 2021

Elizabeth Honcharik, Senior Manager
Environmental Health and Safety
PerkinElmer Health Sciences, Inc.
710 Bridgeport Avenue, M/S 221
Shelton, CT 06484

SUBJECT: PERKINELMER, HEALTH SCIENCES, INC., LICENSE AMENDMENTS, MAIL CONTROL NOS. 624465 AND 624466

Dear Ms. Honcharik:

This refers to your license amendment requests dated November 13, 2020 that was received on January 27, 2021. Please find enclosed Amendment Nos. 29 (License No. 06-02135-08) and 10 (License No. 06-02135-12G) authorizing a new model electron capture detector. We also updated your last name.

An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please contact me at 610-337-5040 or by electronic mail (e-mail) to Elizabeth.Ullrich@nrc.gov so that appropriate corrections or answers can be provided.

Please remember that any electronic submissions in the future may be sent directly to the R1DNMSMAIL RESOURCE at R1DNMSMAIL.RESOURCE@nrc.gov. This e-mail address is monitored by administrative staff and is more reliable than sending mail directly to staff who may be away, or retired as was the case when your letter sent to the e-mail address of a retired staff member in November 2020.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action(s) against you. This could include issuance of a Notice of Violation, or Imposition of a Civil Penalty, or an Order Suspending, Modifying or Revoking Your License as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available at: <http://www.nrc.gov/reading-rm/doc-collections/enforcement/>.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web Site at: <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Betsy Ullrich, Senior Health Physicist
Commercial, Industrial, R&D
and Academic Branch
Division of Nuclear Materials Safety
Region I
