West Conshohocken, PA 19428-2959

SUBJECT: LETTER NOMINATING DR. CASPER SUN TO THE NUCLEAR TECHNICAL
ADVISORY GROUP TO TECHNICAL COMMITTEE 85

Dear Mr. Mawn:

I would like to nominate Dr. Casper Sun as the authorized NRC representative on the Nuclear Technical Advisory Group (NTAG) to the Technical Committee (TC) 85 on Nuclear Energy. Specifically, I would like to nominate Dr. Sun as the authorized NRC representative for TC-85 Sub Committee (SC) 2, "Radiological Protection" and SC-6, "Reactor Technology," related activities. Dr. Sun is a Health Physicist in the NRC's Office of Nuclear Regulatory Research, Division of Division of Systems Analysis, and is responsible for nuclear regulatory research for reactor safety and radiological protection.

In accordance with the Office of Management and Budget Circular No. A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," January 27, 2016, the participation on a committee of an NRC- authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on consensus standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.

However, the NRC's endorsement of these standards, if desired by the NRC, would be part of a separate activity such as incorporation by reference into rulemaking or endorsement in an NRC regulatory guide.

Correspondence should be addressed to:

U.S. Nuclear Regulatory Commission
ATTN: Dr. Casper Sun
Washington, D.C. 20555

Telephone: (301) 415 - 1646
E-mail: Casper.Sun@nrc.gov

Thank you very much for providing the NRC with the opportunity to participate in the work of your committee.

Sincerely,

 Signed by Lund, Louise
on 03/26/21

Louise Lund, NRC Standards Executive
Office of Nuclear Regulatory Research
