AND SECONDARY LIABILITY INSURANCE AND AMENDMENT NO. 15 TO
INDEMNITY AGREEMENT NO. B-68 (EPID L-2020-LLE-0115)

Dear Mr. Moul:

The U.S. Nuclear Regulatory Commission (NRC) has approved the enclosed exemption from the requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) Section 140.11(a)(4) concerning offsite primary and secondary liability insurance for NextEra Energy Duane Arnold, LLC (NEDA).

This action is in response to the application dated July 16, 2020, requesting an exemption to reduce the required level of primary offsite liability insurance from \$450 million to \$100 million and to eliminate the requirement to carry secondary financial protection for the Duane Arnold Energy Center (DAEC). The exemption is effective as of 10 months after permanent cessation of power operations for DAEC, which is June 10, 2021. A copy of the exemption is provided in Enclosure 1 to this letter.

Enclosure 2 to this letter contains two signed copies of Amendment No. 15 to Indemnity Agreement No. B-68 for NEDA's signature. We request that you sign the two originals and then return one of the signed originals to the NRC's Document Control Desk as proof of acceptance. Please keep the other signed original for your records.

In accordance with 10 CFR 2.390, a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
