December 18, 2020

U.S. Nuclear Regulatory Commission,
ATTN: Document Control Desk,
Washington , DC 205550-0001

SUBJECT: Reply to NRC Routine Inspection Report 030-32840/2020-001 and Notice of Violation

Violation A.

- (1) Failure to use a minimum of two independent physical controls to secure a portable gauge during storage.
- (2) There are currently at least two independent physical controls on all gauges.
- (3) Full compliance was achieved on November 25, 2020.

Violation B.

- (1) Failure to notify NRC of change of address and change of use/storage location.
- (2) An amendment to the license will be prepared to report the change of address and the new use/storage location and will be attached to this response.

Should you have any questions regarding this response please contact Richard C. Rakow at 208 631 7909.

Sincerely,
Richard C. Rakow, President and RSO

Hello Allyce and Patti

Attached is the response to your Notice of Violation for a remote inspection performed in October and November of 2020.

Please advise if this will satisfy your compliance requirements. If email delivery is acceptable, please provide the necessary addresses.

Thanks much and Happy Holidays to you both.

Richard Rakow
Rakow Construction Services, Inc.
