Date: Thursday, February 04, 2021 3:02:00 PM

Dear Mr. Bryce:

We received and reviewed the response dated January 28, 2021. To further assess the facility shielding, I reviewed the previous license renewal application dated July 14, 2010 signed by Donna K. Penn, Facility Manager.

If the rooms above have not been changed, please restate the shielding information listed in the application above for those rooms and the additional equipment which will be used to handle PET isotopes (as requested in Item 2 of our previous request for additional information dated January 8, 2021).

Please provide the response in writing with authorized signature and date by March 4, 2021. To facilitate proper mailing handling in our office, please reference Mail Control No. 623178 in the cover letter. You can fax the response to 630-515-1078 or scan and email the response as a pdf to frank.tran@nrc.gov. If you have any questions or need a clarification, please do not hesitate to contact me at 630-829-9623 or reply to this email.

Thank you,

Frank Tran

Frank,

I believe the additional information you requested should be mailed to you on Monday. If you haven't received it by the 5th, please let me know.

Thanks!

Bryce
