Good afternoon Nolan,

Based on our conversation today and your description of the details regarding the additional information you are awaiting from both businesses, I will be able to extend the RAI response dead line of March 8, 2021 to April 7, 2021.

If achievable, I would appreciate an approximate sale date, as part of this RAI Response. If not possible, please state that the approved date of sale will be provided under a separate cover letter as soon as that date is confirmed.

Also, (we did not discuss this today) I anticipate that I will need answers to the following questions regarding the proposed corporate parent company. I would appreciate it if you could possibly provide these answers as part of the RAI Response. Please feel free to reach out to me if you have any questions or concerns regarding this additional request. I will be happy to discuss it with you.

1. Does the proposed corporate parent company have a current Agreement State or NRC license for radioactive material? Yes/No
2. Does the proposed corporate parent company have any subsidiary companies that hold either an Agreement State or NRC radioactive materials license? Yes/No
3. Does the proposed corporate parent company have any subsidiary companies that hold a non-radioactive material State or federal government license/registration/ authorization? Yes/No
4. Is the proposed corporate parent company a local, State, Tribal nation, or federal government entity? Yes/No

As reminder, your current request for a change in control, mentions that this sale/transfer will not result in any changes to the licensee name, licensed materials, persons using the licensed material, location of use, or persons responsible for the radiation safety program. However, please note that any future changes in the licensee's name, licensed use, licensed materials, licensed location, persons responsible for licensed material, or other changes to the corporate organizational structure require submission of a request to amend the license or a request to transfer the license. NRC approval must be received prior to implementation of the proposed change.

Best regards,

Laurie A. Kauffman

Subject: [External_Sender] RE: [EXT] RE: RAI follow up and timeline

Laurie,

We received word that the transition to our new parent company will be delayed. A new date has not been confirmed. Because the businesses are still working through FTC guidelines/approval, we would like to request a 30-day extension on response to the RAI.

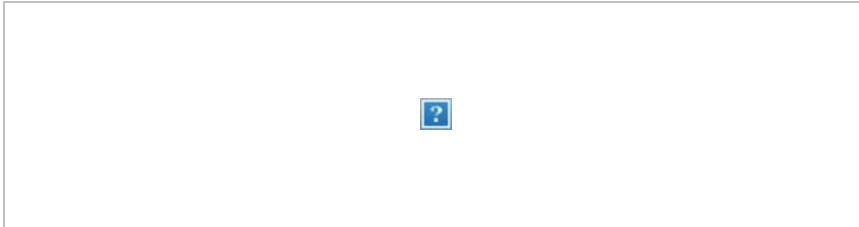

Please advise if this is acceptable or if you have any questions or comments.

Regards,
Nolan

Subject: [EXT] RE: RAI follow up and timeline

Good morning Nolan,

The NRC typically requests 30 days to provide an RAI response. Since you'll need extra time, and we know you are working to provide an RAI response, simply let me know how much extra time you feel you will need to respond.

Thank you,
Laurie

Subject: [External_Sender] RAI follow up and timeline

Hi Laurie,

Just wanted to provide you a quick follow up. I am still working with corporate and legal to complete the RAI response on transfer of control as we are making progress. Our site leadership team wants to understand the impact on operations and our ability to continue production as it pertains to having a

response complete by 3/08. Assuming the transition to our new parent company - DIC corporation occurs on 3/31/2021 and is not delayed again.

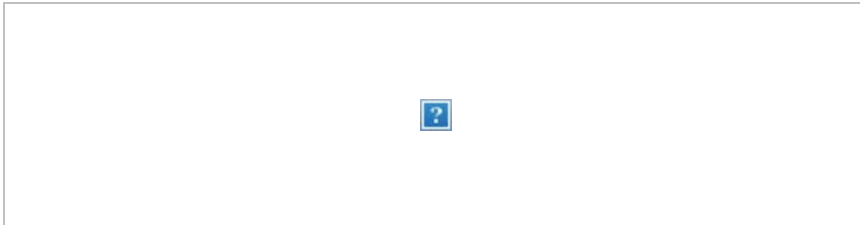

Please advise or call my mobile phone when you are free.

Thanks,
Nolan
