Mr. Viola,

I am Jonathan Pfingsten of the U.S. Nuclear Regulatory Commission, Region I. I have been assigned to your amendment request seeking to change the location of storage for your license.

NRC License Number 45-35205-01 currently authorizes you for use of the materials at temporary job sites (TJS) in NRC jurisdiction only. There is no authorization for a location of storage in VA given that your offices in Winchester would fall under the Agreement State jurisdiction of the Commonwealth of Virginia. Therefore, I cannot add this location to your license.

However, I can change the mailing address from P.O. Box 575, Broadway, VA 22815 to your new location of 220 Imboden Dr, Winchester, VA 22603 if you desire.

Please call me at the number below if you have any questions.

Thank you,
