Subject: Pending NRC License Amendment - Additional Information Requested
Date: Tuesday, March 09, 2021 12:54:00 PM

Hello Thomas,

Thank you for taking time out of your day to discuss your pending NRC license amendment request. As we discussed today, as Dr. Stecklein is an authorized user for 10 CFR 35.394, which permits use of I-131 in quantities greater than 33 mCi, he also meets the requirements 10 CFR 35.392, which permits use of I-131 in quantities less than or equal to 33 mCi.

If you would like to expand the requested authorization for Dr. Stecklein to include use of I-131 in quantities less than or equal to 33 mCi please provide a signed and dated letter requesting that he be named as an Authorized User for 10 CFR 35.300 (limited to sodium iodide I-131).

You are by no means required to request this expanded authorization, but the option is available to you.

Thank you,
Laura
