Subject: Additional Information Supporting the Review of NEDC-33922P, BWRX-300
Containment Evaluation Method Licensing Topical Report

Reference: 1. GEH Letter M200130, "Pre-Application Submittal of NEDC-33922P,
BWRX-300 Containment Evaluation Method Licensing Topical Report,"
September 25, 2020.

Licensing Topical Report (LTR) NEDC-33922P, "BWRX-300 Containment Evaluation Method," Revision 0, was submitted in Reference 1. This letter transmits electronic media containing inputs and outputs for modeling the TRACG and GOTHIC base cases in NEDC-33922P, "BWRX-300 Containment Evaluation Method."

This information is being submitted specifically to support review of the LTR by the U.S. Nuclear Regulatory Commission (NRC) and the Canadian Nuclear Safety Commission (CNSC).

Enclosure 1 and the associated electronic media contain detailed information that is of the type GEH considers to be proprietary in its entirety. GEH hereby requests that Enclosure 1 and the associated electronic media be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17. In addition, Enclosure 1 and the associated electronic media contain information subject to the export control laws and regulations of the United States, including 10 CFR Part 810.

The affidavit contained within Enclosure 2 identifies that the information contained in Enclosure 1 and the transmitted electronic media have been handled and classified as proprietary to GEH and subject to the United States export control laws and regulations. A non-proprietary version of information contained in Enclosure 1 and the transmitted electronic media have not been provided in accordance with NRC Information Notice 2009-07, which states: "In instances in which a nonproprietary version would be of no value to the public because of the extent of the proprietary information, the agency does not expect a nonproprietary version to be submitted."

It is GEH's expectation that the NRC and CNSC staff will use the proprietary information in Enclosure 1 and in the electronic media solely for their review activities for the BWRX-300. At

the conclusion of the NRC and CNSC review activities or when requested, GEH expects all copies of the electronic media will either be destroyed or returned to GEH and that all files installed, copied, or modified from the files contained on the electronic media will be securely destroyed.

If you have any questions, please contact me at 910-200-3295.

Sincerely,

George E. Wadkins
Vice President, New Power Plants and Products Licensing
GE-Hitachi Nuclear Energy Americas, LLC
