Report of Changes to Emergency Plan

In accordance with 10 CFR 50.54(q)(5) and 10 CFR 72.44(f), NextEra Energy Point Beach, LLC (NextEra) hereby submits a description of changes to the Point Beach Nuclear Plant (PBNP) Emergency Plan and a summary of the analysis demonstrating that the changes do not reduce the effectiveness of the plan. The plan continues to meet the requirements in 10 CFR 50 Appendix E and the planning standards of 10 CFR 50.47(b). The changes were incorporated in the following procedure issued February 22, 2021 at PBNP:

- EP 2.0, Emergency Plan Acronyms & Definitions, Revision 59
- EP 5.0, Organizational Control of Emergencies, Revision 68
- EP 6.0, Emergency Measures, Revision 67
- EP 7.0, Emergency Facilities and Equipment, Revision 69
- EP Appendix M, Matrix for Emergency Preparedness Equipment, Revision 11
- EP CR Index, Emergency Plan Cross-Reference Index, Revision 19

Description of Changes and Summary of Analysis

All above procedure changes were revised due to the implementation of Integrated Public Alert and Warning System (IPAWS) as primary alerting, retiring siren systems.

EP 6.0 had additional change due to Engineering Change 293123 Emergency Breathing Air (EBA) Abandonment and lengthening change out of DLR equipment established by Radiation Protection.

In addition, EP 2.0, EP 5.0 and EP 6.0 had editorial changes.

These changes were evaluated in accordance with 10 CFR 50.54(q)(3). These changes were determined to not reduce the effectiveness of the PBNP Emergency Plan.

This letter contains no new regulatory commitments or revisions to existing commitments. If you have any questions, please contact Denny Smith at 920-755-6001.
