OOooohhhh. Sorry, I thought they sent you copies of the actions 😊

Here are the two actions. They're in WBL, but not in ADAMS

I think I'm confused. The two pending amendments that Roberto referenced in his email have already been processed into WBL. I'm not sure where the incoming requests are if they are not in ADAMS, and we are not getting hard copies.

Alliance Healthcare Services (licensing mail controls 624775 and 624905) has been transferred to R-III. Please inform the R-III inspection branch for their awareness when running WBL reports for pending inspections (Alliance will show up in their reports and they are going to wonder why).

Hi Roberto,

Yes, I agree this license should be with Region III. Go ahead and transfer it over to us. I've cc'd the RIII Licensing Assistant Tammy Tomczak for her awareness.

Importance: High

Heather and Carol:

Alliance should be a transfer from R-I to R-III (not R-I to R-IV) based on the guidance on section 3.2.2 of NUREG-1556, Volume 20, revision 1, that reads as shown below.

Responsibility for Review of License Applications

To ensure uniform handling of license applications between licensees and Regions and to minimize licensing and inspection conflicts, the responsibility for reviewing a license application and issuing the license should be assigned to the Region where the licensed activities are inspected. In most cases, the mailing address and the place of use are located in the same Region. When a mailing address is located in one Region and the field offices are located in another Region, the licensee should be assigned to the Region where the majority of field offices are located. In most cases where an application or license authorizes the use of material in multiple Regions, the mailing address of the parent company should be used to determine the Region that will conduct the review and issue the license.

The attached license from Alliance authorizes temporary job sites (condition 10.A.) and has locations 10.B and 10.C with addresses in Michigan (R-III).

The statement from Penny (R-I) that because the mailing address changed from West Virginia to California and thus is a R-IV license and the state code in the license should be changed is old guidance superseded by Volume 20 and by a 2018 NMSS memo. Attached is 2018 memo from NMSS rescinding the process of changing state code in a license.

Heather: This conversation needs to happen between R-IV branch chief and R-I branch chief.

Do I accept this message from Penny as a transfer or do they have to do something officially notifying us that they're transferring it to us? I know in the past when we had hard copy files we would receive the actual file along with a memo saying they were transferring it.

Subject: RE: Question about this license...

They changed their mailing address to from WV to California. They operate all over the U.S. and have a storage facility in MI for Strontium waste and Germanium sources received back from trailers used across the country. They closed their WV site a while ago. So state code should be changed.

Correct, it was a RI license that should be transferred to RIV.

I have also attached an email from their RSO requesting a contact in RIV. Alliance has a tie-down to tell us once a year all the facilities they operate at so that we can better plan for inspections. Their notification is due soon.

Subject: Question about this license...

Hi Penny,

I'm the Licensing Assistant in Region IV. I received the attached request from Alliance HealthCare Services, Inc. And I'm confused, maybe you can help me?

The license - 47-25570-01, is program code 02220 - Mobile Medical Service - Written Directive Not Required

State code 47 = West Virginia (Region 1)

The location listed on the license is Michigan (Region 3)

The mailing address is California (Region 4)

WBL lists it as RIV, but we have no copy of it in the our electronic license working folder and the last amendment was issued by you.

So whose license is it really?

Was it a Region I license that was or should have been transferred to Region IV? Is it mistakenly listed in WBL as a Region IV license?

Any help you can share would be greatly appreciated.

Thanks,

-Carol
