CHAPTER 14 – TECHNICAL SPECIFICATIONS**14.1 TECHNICAL SPECIFICATIONS**

The SHINE technical specifications were developed following the format and content guidance of American National Standards Institute/American Nuclear Society (ANSI/ANS) 15.1-2007, The Development of Technical Specifications for Research Reactors (ANSI/ANS, 2007), and incorporating the applicable guidance of NUREG-1537, Parts 1 and 2 (USNRC, 1996a; USNRC, 1996b) and the Interim Staff Guidance Augmenting NUREG-1537, Parts 1 and 2 (USNRC, 2012a; USNRC, 2012b). Normal operation of the SHINE facility within the limits of the technical specifications will not result in offsite radiation exposure in excess of 10 CFR Part 20 guidelines. Observance of these technical specifications limits the likelihood and consequences of malfunctions.
