---

Steve-

I'm reaching out to you on Ken's behalf with regards to DOE LTSP revision and response to the NRC Split Rock LTSP comments dated March 4, 2021.

Attached is a draft revised LTSP and responses to the NRC comments. These documents are provided to indicate DOE's approach for addressing NRC's draft LTSP comments. DOE is in the process of finalizing the LTSP and responses to NRC comments for formal transmittal and anticipate this will occur imminently. Please review and let DOE know if NRC needs anything additional from DOE to address NRC comments on the Split Rock LTSP.

Additionally, would NRC please provide DOE with the status of NRC response to the DOE 06/24/2020 memo "INFORMATION TO SUPPORT A POST SITE TRANSITION WITHDRAWAL OF BLM MANAGED LANDS AT THE SPLIT ROCK, WY DISPOSAL SITE" regarding transition and withdrawal timing?

Thank you!

Best regards,
