Good morning Jan and Lucieann,

Looking at Oklo's availability for November 5th, the people needed to support the ACRS meeting are available from 3pm - 4:30pm EST. Let's establish that as our ACRS presentation/question time frame within the agenda. Please let us know if that time slot poses any issues.

Thanks,
Ross

Jan,

Thanks for the requested information; let's plan to still discuss at the 2pm call. Thanks.

Hi Ross,

I expect that 7 staff members (core review team) would attend and charge Oklo for this meeting. The number of hours depends on the length of the meeting. We do not plan to have preparation work ahead of the meeting so the charges would be for the meeting time only.

Thanks - Jan

Hi Jan/Lucieann,

I just wanted to follow up, were you able find the answer regarding the estimated NRC staff hours for the ACRS meeting and how they were planning to be billed? This was the last remaining follow-up item intended to be discussed at this afternoon's meeting. Let me know if you have any questions.
Thanks!

Hi Lucieann,

We still don't understand the intent of the additional time allotted for the Oklo discussion. Originally we had requested 45 minutes for our presentation and 45 minutes for Q&A. This has now evolved into a three hour Oklo block. Could we set up an additional 30 minutes Monday to discuss further? Our best availability is at 2 PM EST but if that time doesn't work let me know and I can try and move some things around.

For the meeting on Monday, we'd like to understand the following:

- 1) Goal/expected outcome of the additional discussion,
- 2) Where in process are we with this additional discussion,
- 3) Estimated NRC staff hours to be billed for this effort

Ultimately, I think we are prepared to do the presentation and Q&A with the time that was originally discussed, but we want to understand the context and goal of the additional discussion that is being added before we can commit to that additional time.

Let me know if you have any questions. Thanks!

Ross

Hello:

Yes, we can talk either before or at our next bi-weekly.

Please remember that this meeting along with its agenda is requested by the ACRS. They have read your application and the discussion session will include their questions that may contain proprietary information and that is why it will be an open/closed meeting. We haven't receive specifics of what information they would like for you to cover, so an overview presentation and responding to their questions should be fine. ACRS has drafted the agenda based on the premise of your 1hr presentation so if you will modify the length of your presentation please let us know as soon as you can.

As for breaks, the breaks will be at the discretion of the ACRS Chairman.

I have copied below the Oklo session which is part of the AGENDA 680th ACRS MEETING November 4-7, 2020 that will be published next week. I think is more confusing but in case it helps to have the whole scenario.

5) 11:45 AM – 3:30 PM Information Session on the OKLO combined license application including the AURORA reactor design (Open/Closed) (WK/KH)

5.1) Remarks from the Subcommittee Chairman

5.2) Presentation by the applicant

5.3) Preparation of Reports

[NOTE: Pursuant to 5 U.S.C 552b(c)(4), a portion of this session may be closed in order to discuss and protect information designated as proprietary.]

*****Breaks at the discretion of the Chairman. Since Members of the Committee are participating remotely from different time zones, the timing of a break for lunch is also at the Chairman's discretion.*****

3:30 PM – 4:00 PM *Break*****

Good morning Lucieann,

I'm not following this thread very well. Maybe it's better for us to discuss it during our biweekly next week.

The new time is now 4 hours, which apparently includes an open and closed session. It's unclear if it

includes breaks, lunch, etc. We had proposed 1.5 hours, which was all public. You can imagine that an additional 2.5 hours would cause us to reconsider our presentation, including its length.

Additionally, since this meeting has now moved twice, I need to check with all of our calendars.

Let's add this as an item to the next biweekly please so we can clarify what exactly is expected from Oklo. If the meeting block is really 4 hours, which we did not request, our presentation time will subsequently change as well.

Alex

Good morning

The whole meeting is about Oklo. You mentioned that your presentation will take 45min-1hour. After Oklo's presentation is finalized the discussion session for the Aurora COLA will take place.

Now, I need to notify that there is another revision in the schedule. ACRS has moved the briefing to **11:30 am - 3:30 pm (EST) on November 5, 2020.**

11:30 AM – 3:30 PM Information Session on the OKLO combined license application including the AURORA reactor design (Open/Closed)

As soon as I get the meeting links I will pass them to you. Please remember to send us the details of the presentation (presenters, title) and the slides at your earliest convenience but no later than a week before the meeting.

Thanks,

Hi Lucieann,

I'm still unclear on how long this time block is... is the Oklo time 1 hour or ~2.5 hours?

We might adjust our presentation length depending on more detailed information, so please let me know.

Alex

Hello:

If you prefer call me to talk but yes, this is about the only ACRS meeting planned. The meeting was rescheduled from November 4 to November 5th. Below is the proposed agenda.

Can you please provide details about the info in red? This will be published in the NRC website so please let us know as soon as possible.

The presentation slides should also be provided asap but no later than October 29 (a week prior the meeting) so the ACRS members have time to review it prior the meeting. ACRS is aware that your presentation will take around 45 minutes and could be open to the public. However, they anticipate questions that may pertain proprietary information contained in the COL, so there will be a part closed to the public. The meeting could end earlier but the meeting is planned until 5:30 pm to make sure they have the time needed for the discussion. Please note that typically these meetings are long and if you can't support the whole time they may request to schedule another meeting to continue the discussion.

I also know that for the meeting we will have a Teams link available only for Oklo and NRC staff. The members of the public will be able to access the meeting (public session only) via a separate bridge line number.

Hope this helps but please do not hesitate to call me.

Thanks,

Lucieann

Hi Lucieann -

I'm not clear on how this is evolving. Can you send a clear layout of what ACRS is proposing? This is not the same meeting that we had spoken about earlier.

Alex

Hi Lucieann,

Understood that the date has changed from Nov. 4 to Nov. 5. We asked for an hour and a half but the below block is for 3 hours (also I'm guessing that's ET?) What is the Oklo time block? Please let us know, and we'll get back to you ASAP.
