Subject: [External_Sender] License typo
Date: Thursday, April 01, 2021 12:43:31 PM

Good afternoon,

I was deeply scrutinizing our license, No. 19-08330-02 Amendment No. 72 in preparation for the NRC inspection scheduled for May 2021. It took a few times looking at it to realize there is a typo.

It is in line A of Section 6, Byproduct, source, and/or special nuclear material. It states: Any byproduct material with atomic numbers > 83 with exceptions. It should read: Any byproduct material with atomic numbers < 83 with exceptions.

Reviewing past licenses, the same typo occurred in Amendment 71, but Amendment 70 gave the ranges of atomic numbers 3 through 83.

Please advise on my part of the actions required to have it corrected.

Jeff
