

# HEAF Research Working Group

## Update

Mark Thaggard, Director  
Division of Risk Analysis  
Office of Nuclear Regulatory Research

April 6, 2021

# Key Points

## Point - 3

Large-scale testing activities put on hold

## Point - 1

Focus of this meeting is the status of the joint Working Group's progress in the development of improved ZOI and PRA methodology

## Point - 4

The final result will be a more realistic method than currently available in NUREG/CR-6850 (EPRI 1011989)

## Point - 2

Last public HEAF meeting held July 2019
