Ms. Johns/Mr. Gates:

As discussed during the inspection planning/kick-off call held yesterday (3/29/2021), attached is the **Request for Information (RFI) in support of the River Bend Station EP Exercise Inspection which will be conducted the week of May 10, 2021.**

As discussed in yesterday's call, the biennial EP Exercise inspection for RBS will be limited to the use of Inspection Procedure (IP) 71114.01 and will assess the station's conduct and critique of the biennial emergency preparedness exercise to be conducted that week. (We will NOT be reconducting the IP 71114.08 scenario review which we completed late in 2020 before you requested and were granted an exemption for postponement of the exercise to May 2021. Further the annually completed IPs 71114.04 and 71151 will be conducted for CY2021 as part of the EP Program Inspection to be completed at RBS later in June 2021.)

Details of the requested materials are included in the attachment to this e-mail. Some of the materials are requested to be made available when onsite for the inspection, while others are requested to be provided prior to the onsite week for in-office inspection/review. If you are unable to complete the requests or have questions regarding them, please contact me at the phone number listed below to discuss.
