Re: Additional information to control number 623927.
Central Missouri Cardiology License # 24-32441-01 Docket # 030-36211

Transferor: Central Missouri Cardiology
Transferee: Capital Region Physicians – Central Missouri Cardiology

We confirm that all records concerning the safe and effective decommissioning of the facility have been transferred to the transferee. These records include documentation of surveys of ambient radiation levels and fixed and/or removal contamination, including methods and sensitivity.

We confirm that both the transferor and the transferee agree to the transferring control of the licensed material and activity, and the conditions of transfer, and that the transferee has been made aware of any open inspection items and its responsibility for possible resulting enforcement actions.

We confirm that the transferee will abide by all constraints, conditions, requirements, and representations and commitments of the transferor.

We confirm the status of the licensee's facilities, equipment and radiation safety program is current and in compliance with the NRC standards. There is no known contamination and there was no decontamination prior to the transfer.

All calibrations, leak tests, area surveys and wipe tests, training, and quality control procedures have been consistently performed and are in compliance with the NRC standards.

Respectfully Submitted,
