Ok. I'll submit a new amendment request.

I did receive the certification for Dr. Alan Kuo. It is attached. The certificate for the other two cardiologists was supplied with the amendment request but Dr. Kuo only had the letter confirming that he passed.

Mr. Schippers,

This request will be handled separately. Please submit your request on letterhead. The letter should be signed and dated by a member of management.

Thank you

Michelle,

We also have to request approval for a new HDR unit. In April we hope to replace our (Elekta, Inc. [formerly Nucletron]) Model microSelectron 106.990 remote afterloading brachytherapy device

[item 6G on our license] with 136149A02 Flexitron (Formerly Isodose 09-00-112 Flexitron).

According to the attached documentation, The Nucletron/Elekta 136147 model (formerly Isodose Control source model 09-00-001) sealed source is approved for use in the 136149A02 Flexitron (Formerly Isodose 09-00-112 Flexitron). The source is not registered in a separate certificate.

Is it possible to include this change in the amendment request that you are currently working on?

Michelle,

My letter containing our commitment to follow the latest Y-90 guidance is attached. I reached out to Dr. Kuo regarding his certificate. His response is copied below.

Hi all,

I will send the actual certificate as soon as I receive it. CBNC informed me however that they won't be sending out certificate for quite sometime as they switched to remote work during COVID; instead they provided with that letter instead. I will keep an eye out for the certificate and send it in as soon as I get it.

Thanks,
Alan Kuo

Please accept the attached license amendment request, *NRC Amendment Request, Cardiologists as AU, Jan2021.pdf*

We also have an amendment request, dated November 12, 2020, that is in process. This request was emailed to your office on Nov. 16, 2020. Perhaps today’s request can be processed with our Nov. 12, 2020 request.

Thank you,
Dale Schippers
