Dear Dr. Hashemian,

On March 5, 2021, the U.S. Nuclear Regulatory Commission (NRC) staff issued a Request for Additional Information (RAI) to Analysis and Measurement Services Corporation (AMS) (ADAMS Accession No. ML21067A674). The RAI relates to a topical report request regarding online monitoring technology to extend calibration intervals of nuclear plant pressure transmitters.

AMS subsequently informed NRC staff that additional time was needed in providing responses to the RAI. Dr. Hashemian agreed to provide a response to this final RAI by Monday, May 17, 2021.

Thank you,
