

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 15, 2021

Mr. Daniel G. Stoddard
Senior Vice President and
Chief Nuclear Officer
Virginia Electric and Power Company
Innsbrook Technical Center
5000 Dominion Boulevard
Glen Allen, VA 23060-6711

SUBJECT: NORTH ANNA POWER STATION, UNITS 1 AND 2 – REQUEST FOR
WITHHOLDING FROM PUBLIC DISCLOSURE REGARDING SUBSEQUENT
LICENSE RENEWAL APPLICATION (EPID NO. L-2020-SLR-0000)

Dear Mr. Stoddard:

By letter dated August 24, 2020 (Agencywide Documents Access and Management System (ADAMS) Package Accession No. [ML20246G703](#)), Virginia Electric and Power Company (Dominion Energy or the applicant) submitted an application for the subsequent license renewal of Renewed Facility Operating License Nos. NPF-4 and NPF-7 for the North Anna Power Station, Units 1 and 2 (NAPS) to the U.S. Nuclear Regulatory Commission (NRC). Dominion Energy submitted the application pursuant to Title 10 of the Code of Federal Regulations Part 54, "Requirements for Renewal of Operating Licenses for Nuclear Power Plants," for subsequent license renewal.

As part of the application, you submitted an affidavit dated January 17, 2020, executed by Camille T. Zozula, Manager, Infrastructure and Facilities Licensing, Westinghouse Electric Company LLC, where you requested that the information contained in the following document be withheld from public disclosure pursuant to 10 CFR Section 2.390:

WCAP-11163-P, "Technical Justification for Eliminating Large Primary Loop Pipe Rupture as the Structural Design Basis for North Anna Units 1 and 2 Nuclear Power Plants for the Subsequent License Renewal Program (80 Years) Leak-Before-Break Evaluation," Revision 2

A nonproprietary copy of this document has been placed in the U.S. Nuclear Regulatory Commission's (NRC's) Public Document Room and added to the NRC Library in the Agencywide Documents Access and Management System (ADAMS Accession No. [ML20246G707](#)).

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

"Pursuant to 10 CFR 2.390, the following is furnished for consideration by the Commission in determining whether the information sought to be withheld from public disclosure should be withheld.

- (i) The information sought to be withheld from public disclosure is owned and has been held in confidence by Westinghouse and is not customarily disclosed to the public.
- (ii) Public disclosure of this proprietary information is likely to cause substantial harm to the competitive position of Westinghouse because it would enhance the ability of competitors to provide similar technical evaluation justifications and licensing defense services for commercial power reactors without commensurate expenses. Also, public disclosure of the information would enable others to use the information to meet NRC requirements for licensing documentation without purchasing the right to use the information."

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act

request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached via e-mail at Lois.James@nrc.gov.

Sincerely,

Signed by James, Lois
on 04/15/21

Lois M. James, Senior Project Manager
License Renewal Projects Branch
Division of New and Renewed License
Office of Nuclear Reactor Regulation

Docket Nos. 50-338 and 50-339
