

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION IV
1600 EAST LAMAR BOULEVARD
ARLINGTON, TEXAS 76011-4511

April 16, 2021

Mrs. Maria L. Lacal, Executive Vice President
Chief Nuclear Officer
Arizona Public Service Company
P.O. Box 52034, MS 7602
Phoenix, AZ 85072-2034

SUBJECT: PALO VERDE NUCLEAR GENERATING STATION, UNITS 1, 2, AND 3 - NRC
INITIAL OPERATOR LICENSING EXAMINATION APPROVAL
05000528/2021301; 05000529/2021301; 05000530/2021301

Dear Mrs. Lacal:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at Palo Verde Nuclear Generating Station, Units 1, 2, and 3.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Mr. J. Rodgers, Lead Examination Developer. Note that any examination waivers and application denials have been addressed in separate correspondence.

The NRC has approved the subject examinations and hereby authorizes you to administer the written examination in accordance with NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 11, on May 6, 2021. The NRC staff will administer the operating tests during the week of April 26, 2021. This examination has undergone extensive review by my staff and representatives responsible for licensed operator training at your facility. Based on this review, I have concluded that the examination meets the guidelines of NUREG-1021 for content, operational, and discrimination validity. By administering this examination, you also agree that it meets NUREG-1021 guidelines and is appropriate for measuring the qualifications of licensed operator applicants at your facility. If you determine that this examination is not appropriate for licensing operators at your facility, do not administer the examination and contact me at 817-200-1159.

Please contact Clyde Osterholtz, chief examiner, at 817-200-1269, if you have any questions or identify any errors or changes in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant approved to take the examination.

Sincerely,

Gregory E. Werner, Chief
Operations Branch
Division of Reactor Safety

Docket Nos.
05000528, 05000529
and 05000530

License Nos. NPF-41, NPF-51, and NPF-74
