

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

April 13, 2021

Mr. Bruno Huguet
Orano Federal Services
4747 Bethesda Avenue,
Suite 1001
Bethesda, MD 20814

SUBJECT: U.S. NUCLEAR REGULATORY COMMISSION REVIEW OF EXPORT LICENSE
APPLICATION XCOM1336

Dear Mr. Huguet:

I am writing to update you on the status of your export license application XCOM1336. The application is currently under review by the U.S. Nuclear Regulatory Commission (NRC) for the export of components to the Melox mixed oxide fuel fabrication facility in France. Title 10 of the *Code of Federal Regulations* (10 CFR) 110.40(d) states, in part, if the Commission has not completed action on a license application within 60 days after receipt of the Executive Branch (EB) judgement, the NRC is required to inform the applicant in writing of the reason for the delay.

The NRC received the final EB judgment on February 3, 2021, but additional time is needed for the NRC to complete its review of the export application.

You may contact Barry Miller, the licensing officer assigned to your case, at any time for additional information. Mr. Miller may be reached via email at Barry.Miller@nrc.gov.

Sincerely,

4/13/2021

 Peter J. Habighorst

Peter. J. Habighorst
