Dear Sir or Madam:

This is an amendment request to the Radioactive Materials License (RAML) referenced above. The purpose of the amendment is to:

1. Terminate the above referenced radioactive materials license.

- Covance Laboratories, Inc., 671 South Meridian Road, Greenfield, IN 46140, NRC License #13-32713-01, has requested amendment of their license of broad scope to include our location as a location of use.
- Both locations are owned and managed by the same legal entity.
- All radioactive materials use and use areas will be transferred to the Greenfield NRC License as they currently exist. There are no requested changes to use areas so no decommissioning or public release surveys are necessary.
- Mr. Brian Davidson is the named RSO on both licenses so we do not anticipate the NRC will require any further documentation.
- We request continuation under the timely renewal until such time as the NRC approves the requested amendment of the Greenfield NRC License at which time we request the NRC terminate this license. Please find attached the requested NRC Form 314.

Should you require additional information, please do not hesitate to contact Mr. Brian Davidson directly at 317-273-5369.

Sincerely,

John Spegele
Vice President Business Systems & Indianapolis Site Lead
