deficiencies with prior environmental reviews are outside the scope of this proceeding, fail to raise a material dispute with the Application, and constitute an impermissible challenge to NRC's categorical exclusion.<sup>27</sup>

2. Petitioners' Claims Related to the PSDAR and ENOI ISFSI Decommissioning Funding Plan Are Out of Scope

Rather than addressing the federal action in this proceeding, Contention 1 challenges HDI's PSDAR, as well as the ISFSI Decommissioning Funding Plan submitted by ENOI in 2018.<sup>28</sup> For example, Petitioners claim that HDI's PSDAR and/or ENOI's ISFSI Decommissioning Funding Plan do not sufficiently address the environmental effects of off-site waste transport,<sup>29</sup> GTCC disposal,<sup>30</sup> repackaging SNF into transportation casks,<sup>31</sup> long-term storage of SNF on the ISFSI pads,<sup>32</sup> and dry storage of high-burnup fuel.<sup>33</sup> But neither HDI's PSDAR nor ENOI's ISFSI Decommissioning Funding Plan is subject to challenge in this proceeding.

As an initial matter, the financial qualifications of HDI and Holtec Palisades are not based on the ENOI ISFSI Decommissioning Funding Plan for Palisades. HDI's Site-Specific Decommissioning Cost Estimate ("DCE") includes its own cost estimate for decommissioning the Palisades ISFSI.<sup>34</sup> In any event, the PSDAR is not approved by NRC nor does it constitute a major

federal action.<sup>35</sup> As the Commission succinctly put it in its recent order rejecting similar claims in the Indian Point license transfer proceeding, “the PSDAR . . . does not amend the NRC license and is not a major federal action subject to NEPA review.”<sup>36</sup> The PSDAR is instead meant to provide a “general overview for the public and the NRC of the licensee’s proposed decommissioning activities.”<sup>37</sup> In fact, when the NRC promulgated its decommissioning regulations, “it specifically considered and rejected the idea that review of the PSDAR should be defined as a major federal action under NEPA because environmental analysis of activities to be performed under the PSDAR will necessarily have been performed in accordance with prior site-specific or generic analysis.”<sup>38</sup> The fact that HDI submitted the PSDAR at the same time it is seeking approval of the Application does not change this fact.<sup>39</sup> Petitioners’ claims related to the PSDAR and ENOI ISFSI Decommissioning Funding Plan are thus beyond the scope of this proceeding and constitute an impermissible challenge to NRC rules.

While it is not necessary to dispose of Petitioners’ out-of-scope arguments, it bears noting that the alleged environmental impacts associated with off-site waste disposal, facility decommissioning, and SNF management have all been previously reviewed in the Decommissioning GEIS, Continued Storage GEIS, or the License Renewal SEIS for Palisades.<sup>40</sup>
