Subject: [External_Sender] RE: Submittal of Surry VPDES Permit Renewal Application

Tam,
The VPDES permit reissuance application for Surry (VA0004090) was electronically submitted to the Virginia Department of Environmental Quality on 8/26/2020. Please let me know if you have any other questions. Thanks,
Keith

Keith:

Below is the question from Kevin and Bob, what we need is the date of the application (not the status of the permit as I mentioned earlier). Your email will be docketed as a reference for the Surry ROD. Thanks/Tam

Good afternoon. The NRC staff is working to finalize the Surry Record of Decision for inclusion in the SLRA licensing package. We need to verify when Dominion submitted the main body of its VPDES permit renewal application so that we can update the status in the ROD.

As we indicate in the April 2020 FSEIS, Surry's VPDES permit (number VA0004090) expired on February 28, 2021. Therefore, Dominion was scheduled to submit its renewal application by September 2020. Can you provide the date the application was submitted, or point us to a publicly-available source. Thus far, our efforts to find this information from public sources have not been successful.

Separately, we do have documentation from Dominion regarding the submittal of the required Clean Water Act Section 316(b) reports as required by 40 CFR 122.21(r) to VDEQ, which occurred in June 2020 (ADAMS Accession No. ML20269A409).

Of course, this is a very time-sensitive matter as staff is working to finalize the ROD as quickly as possible. Thank you in advance for your help and contact me with any questions.
