Thanks, I received all 28.

When closing out a facility I am required to account for all licensed material that has been stored at that location over the years. As fewer leak tests were provide than the total number of gauges authorized on the license could you please provide a signed and dated statement confirming that the 28 leak tests provided account for all licensed material that has been stored at your facility since it was first authorized on the license in 2016?

If additional gauges were previously stored at this location but have since been disposed of or transferred to other licensed groups please provide the transfer or disposal and final leak tests records for those devices with your response.

Other than the requested response we should be on track to issue the two amendments by Friday. Please feel free to call me if you have any questions.

Thanks,
Laura

Part 1.2.

Let me know if you received all 28.

EXTERNAL

I see that Part 2 has come through but I did not receive Part 1 of your response. Unfortunately our firewall has a file size limit for emails that originate outside of our agency and you may need to break the file up into two smaller files to get it to come through.

Thanks,
Laura

Hey Tim,

I have no additional questions regarding Mr. Denning's qualifications. Do you have an ETA on when you expect to have leak tests results back from the vendor?

Thanks,
Laura

Laura,

Please see the attached letter confirming David Denning's receipt of practical portable gauge training on Friday 4/16/21.

Let me know if you have any questions or need any additional documentation.

Thank you,
