Re: Amendment Application for Export License (PXB.235) to Iraq

Dear Sir or Madam:

QSA Global, Inc. requests amendment to license PXB.235 to increase the maximum activity per source for the following radionuclides to customers in Iraq:

- Am-241/Be: Increase from 0.185 TBq to 419 TBq.
- Cs-137: Increase from 0.074 TBq to 65 TBq.

This change would remove the current license limitation that the aggregation of sealed sources in any shipment shall remain within Category 3 limits, and correspondingly increase the total quantity authorized under the license for a total of 8 shipments prior to the license expiration to:

- Am-241/Be: Increase from 3,352 TBq.
- Cs-137: Increase from 520 TBq

No other changes are needed at this time to this license. Please see the enclosed, updated NRC Form 7 supporting this amendment request.

No fee is required per 10 CFR 170.31 Category 15.K. Your continued consideration of this request is very much appreciated. If there is additional information we can provide to assist in a decision, please contact me at lori.podolak@qsa-global.com.

Sincerely,
