Morning,

This is a follow-up email to the conversation we had this morning. I need the transfer documentation for the portable gauge with serial number 9843CM. I have attached the leak test for the gauge in question.

As soon as I receive the transfer documentation, I can terminate the license.

Thank you

Michelle:

I hope that the attached MRA satisfies the final requirement for closing our NRC license. If you need anything else, please let me know and I will be glad to provide. Thank you.

Michelle:

we found documentation for the Material Return Authorization request for instrument with serial number 9843CM. We are reaching out to the vendor for a copy of the official, final transfer documentation. Thanks.

Sarah,

I found this in my project files and yes it is the old source that we sent back to Vega. Give it a few days and hopefully they will have more details on it.

Regards,
Terry
