Oxford, MI 48371

**SUBJECT: TERMINATION OF RADIOACTIVE MATERIALS LICENSE FOR TOOLTECH
MACHINERY, INC., NRC LICENSE NO. 21-24662-01**

Dear Mr. Trottier:

In application dated February 25, 2021, you notified the U.S. Nuclear Regulatory Commission (NRC) of a request to terminate NRC Materials License No. 21-24662-01. Your application is available electronically from the Agencywide Documents Access and Management System (ADAMS) at Accession No. ML21062A162.

Based on its review, the NRC staff has concluded that all licensable radioactive material at 20 Church Street, Oxford, Michigan and 625 S. Glaspie Street, Oxford, Michigan has been transferred from Tooltech Machinery, Inc., NRC License No. 21-24662-01, to Trijicon, Inc., NRC License No. 21-19874-01 and residual radioactive material attributable to licensed activities does not exceed the NRC requirements in Title 10 of the *Code of Federal Regulations* (10 CFR) part 20.

Based on this conclusion, no further remediation or actions with respect to NRC-regulated material are required on the part of Tooltech Machinery, Inc. Accordingly, the facilities authorized under the license are suitable for unrestricted use and NRC License No. 21-24662-01 is hereby terminated. A copy of the amended license—Amendment No. 8—is enclosed.

An environmental assessment for this action is not required because this action is categorically excluded under 10 CFR 51.22(c).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's ADAMS, accessible from the NRC Web site at <https://www.nrc.gov/reading-rm/adams.html>.

S. Trottier
