Subject: Request for Additional Information – Amendment request to allow Steris to Perform Source Loading

Discussion:

- 1) Confirmed that the requested amendment will not authorize Steris staff to remove irradiator sources from the irradiator pool.
- 2) Requested the inclusion into source loading procedures a requirement to visually inspect the source rack(s) for damage and structural integrity.
- 3) Requested a CAUTION or WARNING statement to be inserted into procedures to remind authorized staff that a handheld radiation survey is required when removing ANY items from the irradiator pool.

Action Required: Mr. Jackson agreed to modify Steris source loading procedures to require visual inspections of source racks and a Caution or Warning statement to remind authorized staff that a radiation survey is always required when removing items from the irradiator pool.
