May 7, 2021

Mr. Dan Edey  
Radiation Safety Officer  
BJ Services, LLC  
11211 FM 2920 Road  
Tomball, TX 77375

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 42-19649-01

By letter dated April 15, 2021, you informed the U.S. Nuclear Regulatory Commission (NRC) that BJ Services, LLC, wished to terminate NRC radioactive materials license number 42-19649-01. The NRC Form 314 dated April 14, 2021, stated that all radioactive material had been transferred to an Agreement State licensed entity.

The supporting documentation to the NRC Form 314 provided copies of the most recent leak test results. The leak test results demonstrated that there was no evidence of leakage of radioactive material from the sealed sources contained in the devices. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from the facility located at 1716 E. Allison Road, Cheyenne, Wyoming. This facility is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 28 to License No. 42-19649-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have any questions on this licensing action.

Sincerely,

Roberto J. Torres, M.S., Senior Health Physicist  
Materials Licensing and Decommissioning Branch
