**Subject:** wk 4/12/21 - IPEC Weekly Sturgeon Monitoring Report

Good morning,

In accordance with Terms & Conditions #11 of the Amended Biological Opinion and Incidental Take Statement issued by the U.S. National Marine Fisheries Service to Entergy Indian Point on February 9, 2018 (the Amended Authorization), Entergy hereby provides NMFS and the US Nuclear Regulatory Commission with this weekly report on the condition of any Sturgeon encountered during the preceding week's Ristroph Screen impingement sampling at IP2 and/or IP3. This weekly report includes the time and dates of all impingement sampling, the number of Shortnose and Atlantic Sturgeon observed, and the condition of those Sturgeon (i.e., alive, dead, injured), with at least one photograph of each such Sturgeon observed. A courtesy copy is contemporaneously provided to the New York State Department of Environmental Conservation. To that end, please be advised as follows:

During the week of April 26, 2021, the Spring 2021 impingement sampling commenced at IP3 on April 26, 28, 29 and 30, 2021 at approximately 0730 a.m. and continued for 24 hours. April 29 was a make-up day for the missed sampling day of April 19. No sturgeon were observed.

Should you have any questions, please contact me at (646) 355.8972 or Chris Sweeney of Normandeu at (631) 410.3164.

Thank you.
