Certainly. That portion was not included in the redline version as no changes are proposed to the current content. It is provided below as well as a link to the current 335.9180. Please advise of any other questions/concerns. Thanks Michelle,

Section 335.9180 Recentness of Training

The training and experience specified in Subpart J of this Part shall have been obtained within the 7 years preceding the date of application or the individual shall have had related continuing education and experience since the required training and experience was completed.

Hi Gary, the regulations you submitted for 335 is missing section 335.9180; could you please send this section for review?

Thanks,
Michelle

Subject: [External_Sender] State of Illinois: RATS ID 2018-1 and 2020-2

Good afternoon,

IEMA wishes to submit our proposed versions of 32 Ill. Adm. Code 330 and 335 for review against RATS ID 2018-1 and 2020-2. The applicable cross reference sheets are attached as well. We believe that adoption of these revisions will satisfy the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200. Please acknowledge receipt and we would ask that the US NRC complete their review by July 5, 2021.

Thank you for your consideration in this matter. If you have any questions, please feel free to contact me.

Respectfully,
