Title: Teleconference with Tennessee Valley Authority to Discuss a Planned License Amendment Request for Browns Ferry Nuclear Plant, Units 1, 2, and 3

Date(s) and Time(s): June 01, 2021, 02:00 PM to 03:00 PM EST

Location: Teleconference

Category: This is an Observation Meeting. This is a meeting in which attendees will have an opportunity to observe the NRC performing its regulatory function or discussing regulatory issues. Attendees will have an opportunity to ask questions of the NRC staff or make comments about the issues discussed following the business portion of the meeting; however, the NRC is not actively soliciting comments towards regulatory decisions at this meeting.

Purpose: The purpose of this meeting is to discuss a proposed license amendment requesting a modification to cross-tie the control bay chillers at Browns Ferry Nuclear Plant, Units 1, 2, and 3. The proposed modification would provide an alternate cooling source and would reduce the potential for a three-unit shutdown when the control bay chillers for Browns Ferry Nuclear Plant, Units 1 and 2, are inoperable.
