Please deny GE's request for a license amendment to UNC/GR SUA-1475. The plan is insufficient, as it does not include the documented requests of the Red Water Pond Road community to move the waste out of the area. Please work with the Navajo Nation EPA Superfund to create a new alternative to move uranium waste out entirely, as safely as possible, and not to other already overburdened communities. The clean up MUST be done to the highest standards, including ongoing monitoring of groundwater, air, and soil.

The clean up must be done immediately! There is no time to waste or delay the clean up, and the quality of clean up shouldn't be based on available funds.

Sincerely,

Melina Baron-Deutsch  
1208 Columbia Dr NE  
Albuquerque, NM 87106
