Re: The Red Water Pond Community

Dear Sirs,

I cannot believe, and I find it completely unacceptable that this community and other indigenous communities be exposed to toxic waste. It had gone on for generations, as you know. My family and I wonder how people can sleep at night, knowing that this atrocity continues. Truly it must stop, and now.

Please make sure that the waste is hauled to an official toxic waste dump, that the piles of waste be removed and the area cleaned so that children can play on the land that has been designated for indigenous people.

I am tired of our tax dollars being spent on arms and the military. PLEASE correct this horrendous situation here in our own country. We have wronged the indigenous peoples far too long and I feel really ashamed of our government for not fixing this years ago.

Thank you.

Sincerely,
Mrs. Janet Taché
