To Whom it May Concern;

I am writing to respectfully request the the NRC deny GE's request for a license amendment to UNC/GE SUA-1475. In my opinion the plan does not respect the Red Water Pond Road community's request to move the contaminating waste our of the area. A new plan could be worked out with the Navajo Nation EPA Superfund program to create and alternative safely following the highest standards possible. The delays have already caused serious health issues as I know from having lived in New Mexico for over 40 years and having worked for the NM Environmental Improvement Division.

Thank you.
Douglas Conwell
