Report #: NUREG-2243

NRC,

In solidarity with the Navajo Nation, the O'dham Stronghold is writing this email to urge the NRC to deny GE's request for a license amendment to UNC/GE SUA-145 and to consider working with the Navajo Nation EPA Superfund to create a new alternative to remove uranium waste OUT entirely, as safely as possible, and not to pass the burden to other communities.

The indigenous communities have tolerated enough abuse on their ancestral homelands and natural resources, it is the responsibility of the United States to clean up the consequences of their orders of operations.

Sapo,
Marina Thomas
