Attention human(s) at the Nuclear Regulatory Commission:

Please accept these comments from a voting resident of New Mexico regarding Docket ID NRC-2019-0026.

**I write to urge you to deny GE's request** for a license amendment to UNC/GE SUA-147.

The **NUREG-224** plan is insufficient, as it does not include the documented requests of the Red Water Pond Road community to move the waste out of the area.

I urge you to work with Navajo Nation EPA Superfund to create a new alternative to move uranium waste OUT entirely, as safely as possible, and not to other already overburdened communities.

Clean up must be done to the highest standards including ongoing monitoring of groundwater, air, and soil.

Clean up needs to be immediate! The U.S. must not delay cleanup or base quality of cleanup on available funds.

??  
Respectfully,  
Magnolia Vahey
